Welcome to the Military Friendly School's Annual Survey

Please read all the information below.

The list of Military Friendly® Schools and Military Friendly® Schools ratings are assessed through the evaluation of both public data about the institution and proprietary data gathered through our free Military Friendly® Schools survey. The annual, data-driven Military Friendly® Schools survey assessment is offered at no cost to more than 8,800 institutions nationwide. Each year, schools taking the survey are held to a higher standard than in previous years via improved methodology, criteria, and weightings developed with the assistance of an independent research firm and our Advisory Council.

Survey responses are weighted according to the categories below. Final survey results and ratings are determined by combining an institution's survey scores with the assessment of the institution's ability to meet minimum thresholds for Student Retention, Graduation, Job Placement, Loan Repayment, and Loan Default rates for all students and, specifically, for student veterans. The benchmark is set by the score of the leading institution.

Survey Categories & Weightings

- Academic Policies & Compliance
- Graduation & Career Outcomes
- Culture & Commitment
- Military Student Support & Retention
- Admissions & Orientation
- Financial Aid & Loan Repayment

Metric Qualification

One of the most important components of the Survey is meeting the metrical benchmarks. Many institutions fall short or do not even fill these sections out. An institution must meet 3/6 of the benchmarks below. If you do not complete the Metrics section you will not qualify for designation. The data submitted in this area will be compared against public data sources, your metrics must be within 10% of the aggregate data collected. During this evaluation, your school may receive a flag if the data does not fall within 10% of the aggregate numbers in each category. If you receive a flag, you will be required to submit documentation supporting your metrics and you will be required to resubmit your survey again during the designated recording period in order to qualify for designation after a flag is received.

- Graduation rate for all students or veteran students alone is 50% or higher
- 1 year retention rate for all students or veteran students alone is 50% or higher
- 2 year retention rate for all students or veteran students alone is 50% or higher
- Loan default rate for all students or veteran students alone is 20% or lower
- Job placement rate for all students or veteran students alone is 50% or higher
- Transfer rate for all students or veteran students alone is 50% or higher (Community Colleges)

Additional Requirements

Military Friendly® Schools designation requires the following:

- Accreditation and federal programs must be in good standing
- Must meet or exceed minimum standards in the Metrical Benchmarks

- Clear of any federal flags or have not been cited in any state or federal enforcement actions
- No more than 9 veteran complaints or 5% of the student veteran population, whichever is lower, registered against the school in the VA's GI Bill comparison tool. Schools exceeding the complaint threshold will require manual review and may request a survey for their Veteran students and receive 20% of the surveys back with a net-promoter score. If the above mentioned applies to the institution they are not eligible for an award until resolved.

In Order to streamline support services and requests please utilize the tools available on Militaryfriendly.com This is the fastest way to receive a response. All support requests received by our staff will be rerouted to the Military Friendly Schools Guide or website for assistance.

If you have questions around clarification of a question on the survey please check the "?" help documentation on the question.

ALL SURVEY SUBMISSIONS ARE FINAL NO EDITS OR MODIFICATIONS CAN BE MADE AFTER YOUR SURVEY HAS BEEN SUBMITTED. PLEASE REVIEW ALL RESPONSES BEFORE SUBMITTING. IF YOU NEED TO EDIT OR MODIFY THIS WILL REQUIRE THAT YOUR INSTITUTION COMPLETE ANOTHER SURVEY. DUE TO TECHNOLOGY RESTRICTIONS THERE ARE NO EXCEPTIONS.

Q66 Retention Metrics Details

RETENTION RATES

Please provide information regarding retention rates at your institution.

Metric Qualifications

One of the most important components of the Survey is meeting the metrical benchmarks. Many institutions fall short or do not even fill these sections out. An institution must meet 3/6 of the benchmarks below. If you do not complete the Metrics section you will not qualify for designation. The data submitted in this area will be compared against public data sources, your metrics must be within 10% of the aggregate data collected. During this evaluation, your school may receive a flag if the data does not fall within 10% of the aggregate numbers in each category. If you receive a flag, you will be required to submit documentation supporting your metrics and you will be required to resubmit your survey again during the designated recording period in order to qualify for designation after a flag is received.

- Graduation rate for all students is 50% or higher
- or Graduation rate for veteran students is 50% or higher
- 1-year retention rate for all students is 50% or higher
- or 1-year retention rate veteran students is 50% or higher
- 2-year retention rate for all students is 50% or higher
- or 2-year retention rate for veteran students is 50% or higher
- Loan default rate for all students is 20 % or lower
- or Loan default rate for veteran students alone is 15% or lower
- Job placement rate for all students is 50% or higher
- or Job placement rate for veteran students is 50% or higher
- Transfer rate for all students is 50% or higher (Community Colleges)
- Transfer rate for veteran students is 50% or higher (Community Colleges)

RETENTION RATES

Please provide information regarding retention rates at your institution.

For the purposes of this question, "retention rate" is defined as the percentage of the full-time cohort from the prior year minus exclusions that re-enrolled at the institution as either full- or part-time in the current year. Retention rate is the percentage of a school's first-time, first-year

undergraduate students who continue at that school the next year. When calculating this percentage for your military population do not use the "First time" metric (Most military students come in with credit for military experience).

For example, a student who studies full-time in the fall semester and keeps on studying in the program in the next fall semester is counted in this rate. Use date from your last fall cohort or use your latest IPEDs Information. Cohort completion rate is acceptable for programs that are shorter than 2 years.
